

Declaration on Future Food

A declaration developed at the
Hungry for Change Food Summit 2009

Jane Mclvor | Director | Sector Connect

Key Issues

- Identification and protection of prime agricultural land and water supply
- Sustainability as a principle for agricultural production and distribution
- Caution in approving new food production and processing technologies to ensure food safety

Key Issues

- Access to affordable fresh food irrespective of income
- Promoting access to healthy foods through innovative measures such as tax reforms and subsidies
- Ensuring people have access to information so as to make informed food choices

Key Issues

- Research and development in agriculture needs adequate funding
- Ensuring fair economic returns to farmers
- Support for local and regional food initiatives to improve food access.
